Brigitte’s resume

Pat Snyder – And good morning everyone. Welcome to this Tuesday edition of 55 Feedback with Tom King...I’m Pat Snyder. [We have for you this morning] a compelling story from a survivor. Her name is Brigitte Gabriel. And Brigitte is with American Congress for Truth. Ah, Miss Gabriel began her career as a news anchor for “World News”, the evening news broadcast for Middle East television, seen weeknights throughout Israel, Egypt, Syria, Lebanon, Jordan, Cyprus. She is the former production coordinator for ARD [www.ard.de], which is German television in South Lebanon, Gaza, and the West Bank. She’s also a former satellite video distribution coordinator, and, ah, she has ah...with studios in London for daily Euro vision satellite distribution for networks worldwide. She relocated to the U.S. back in 1989 where she founded an entertainment company providing services to national and international media clients. Miss Gabriel founded American Congress for Truth in 2002 to provide information about the Middle East conflict. She has appeared on news and information, TV shows, talk radio, and numerous public engagements. She’ll be on with Neil Cavuto later this afternoon on Fox. She speaks four languages: Arabic, French, English, and Hebrew. And she is here with us. She has a book entitled, Because They Hate. It’s a story about her childhood and, ah, we’re going to learn a little bit more about it. Brigitte, ah, thanks for being with us today!

Brigitte Gabriel – I thank you. I’m delighted to be with you Pat.

Pat’s informed parents

Pat – Well I tell ya...and as I told you in the e-mail, my parents actually heard you on “Laura Ingraham” [www.lauraingraham.com]. And said, “Man, this would be somebody your listeners might really enjoy!” And when I read more about what you’ve gone through, and the experience you’ve had, and the message you’re trying to tell the American people about terrorism (and how huge a threat it is)...I thought this would be perfect.

Bridgitte’s insight

Before we go much further, let’s talk about your life, and let people know how you grew up. And what gives you the insight of what you’re saying today.

Lebanon was a Republic like the United States

Brigitte – Well, I come from Lebanon. I was born and raised in Lebanon. And a lot of people do

not realize that Lebanon used to be the majority Christian country in the Middle East. The only one! Ah, we are a Republic, very much like the United States of America, where we elect our elected officials who represent us the public...which is very different to all the surrounding Arabic countries...where you can identify every country by one man or one royal family. Um, in Lebanon we had, when we got our independence from France, we ah, focused on growing the country [and] in a very short period of time Lebanon became "Paris of the Middle East"...the banking capital of the Middle East. We were open-minded, we were tolerant, we were multi-cultural, we had open borders, we invited everyone to come study in our universities. We had the best education in the Middle East. Ah, we had the best economy in the Middle East, and we didn't even have any oil.

Demographics changed

Um, the Muslims that came from all the surrounding countries to study in Lebanon... stayed and worked in our corporations. And everything was wonderful until the demographics started changing over the years simply because we do not have as many children as Christians. The Muslims multiply at a much faster pace than we do. Ah, they do not put as much emphasis on education. They are allowed to marry multiple wives at a time. They have a lot of children. Um, and that's what really tipped the scale. They became the majority. And once they became the majority they started asking for more Islamic rights in the government, for more Islamic representation.

Influx of Palestinians

And then the problem became aggravated with the influx of the Palestinians out of Jordan, um, in 1970, when Yassir Arafat tried to throw King Hussein out of power, and he failed. King Hussein kicked them out. We took them into Lebanon and they put their heads together with the Muslims and started fighting the Christians.

Pat – Hmm. In your book too Because They Hate...you talked about...I mean, what did your parents do – were they normal middle-class business people?

Elderly parents

Brigitte – Ah, yes. My father was a government official for his career. And he retired and took his retirement money in one lump sum, and built real estate. And so I was raised, um, and enjoyed being born into the company of two elderly parents who were married for over twenty-two years of their lives. They were unable to have any children, and I came into their lives. My mother was 55-years-old. My father was 60. Um, and I enjoyed retired parents who devoted all their attention to me.

Pat – Yeah, boy, they did. And kind of makes you feel like you had a special purpose too, coming to your parents at that time.

Brigitte – That's right. They were, ah, financially secure. They had a good business going. But our lives were turned upside down.

Our life was destroyed

In 1975, when the Muslims declared Jihad on the Christians. And they started massacring and killing the Christians. Because in 1975 they launched katyusha rockets at our home. We were the only Christian town left in south Lebanon, with the only military base still left in the hands of the Lebanese Army. And in trying to take it over they bombed my home, bringing it down, and burying me under the rubble wounded. My father became deaf. He lost his hearing at age 70. Our life was destroyed. We lost all our money. My father had taken all of his life savings from the banks of Beirut, because they were being robbed and burned. And, um, this was before the age of computers and technology. And my father wanted to bring us to America to a safer place. And, um, he lost all his life savings in the bombing. And I, um, I ended up wounded.

Why did they do this to us?!

We ended up in a hospital for two and a half months. And I would ask my parents while I was in the hospital, "Why did they do this to us?!" "Why did they bomb our home?!" "Why am I wounded?!" And, um, my parents would tell me, "Because we are Christians. The Muslims consider us infidels, and they want to kill us." So I knew since I was 10-years-old that I'm wanted dead simply because I was born into the Christian faith.

Pat – Hmm. So ah, they say a Lebanese civil war... It was more of a religious war?

Used our laws and our mentality against us

Brigitte – Ah, it began as a civil war. But the civil war was not between the Muslim Lebanese and the Christian Lebanese. It began as a war between the Palestinians, when Yassir Arafat came into Lebanon and tried to create a base from which to fight Israel...something he tried to do in Jordan, but failed. But he was able to come to Lebanon, which is a democratic, open-minded, fair-minded, tolerant, multi-cultural society. And he was able to use our laws and our mentality against us. And he literally succeeded in doing so, and created a terror base from which to fight Israel.

The banner of Islam

And Muslims came from all around the Arabic countries to fight with Yassir Arafat, because under the banner of Islam []...all the Muslims will come together and rally under the name of Islam and the Prophet to fight the infidels. And Muslims came from all over the Arabic world. They came from Jordan, from Kuwait, from Bahrain, from Egypt, from Saudi Arabia...from all the Muslim countries, to fight the infidels and fight the Israelis...using Lebanon as a launching pad of death to launch their attacks at Israel.

Muslim barbarism

Meanwhile, we ended up surrounded...to be slaughtered by the Muslim forces who tried to ah, take over our town because we lived on the border with Israel (about 5 kilometers from the border). Um, and we heard what they were doing to the rest of the Christian towns in Lebanon. They would, they would walk into Christian cities and towns, and massacre and murder. They would walk into a, a bomb shelter, find two parents and a little baby hiding in a bomb shelter. They would take the baby, tie one leg of the baby to the mother and another to the father, and pull the parents apart splitting the child in half. They would walk into our churches, urinate and defecate on the altar, using the Bible as toilet paper. Um, the last lady that worked for me, I hired her as my housekeeper to take care of her and her family. She was completely mentally disturbed because they tied her to a chair, tied her son on her lap, held a knife to her hand, and made her behead her own son...16-years-old on her lap. And then raped her two daughters.

Media covered up beheadings

Um, Pat, I think the biggest disservice the American media did to the American public is not show the beheading of Daniel Pearl, and Nick Berg [2 of 35], and the other hostages [see www.michaelsavage.com]. Because I believe the West, and especially Americans, need to see the barbarism that is heading their way. Um...

Pat – Okay. Hold that thought Brigitte. We're going to take a quick break here. We're talking with Brigitte Gabriel. Ah, her book is called, Because They Hate. You can go to americancongressfortruth.com (all one word), that's the website, learn a lot more on this, and we're going to learn a lot more as well from Brigitte here. Your calls are invited as well at 845-2155. Back in a moment.

----- BREAK-----

Pat – Welcome back to “55 Feedback”, talking with Brigitte Gabriel. Her book, Because They Hate. She founded “American Congress for Truth”. And ah, she is with us here to talk about her experiences in Lebanon, and ah, the growing terror by the radical Islamists. Let’s pick up where she left off because you were wounded in a hospital Brigitte as a... you were preteen weren’t you?

Life exploded when 10-years-old

Brigitte – I was 10-years-old when my whole life exploded around me. And I, um, ended up in the hospital, and under[went] many surgeries. And when I came back home, my home was no longer the home I left.

For 7 years, lived underground in an 8x10 bomb shelter

I ended up living in a bomb shelter underground with my parents in an 8X10 room, without electricity, without water, and very little food. To get some food my mother and I would crawl out of the bomb shelter under the bombs. And we would dig out grass and dandelions, and different vegetation that grew around the bomb shelter. That was the only greenery we ate. I remember learning how to peel thorns in my tender young hands at age 10, and 11, and 12. So I could eat the thorns...so I could eat the stock inside of the thorn.

Could be killed by a sniper while getting water

Um, to get some water...we didn’t have any water in the bomb shelter...we would crawl under snipers’ bullets to a nearby spring. Ah, and before we left, because of the snipers (we didn’t know if we would come back alive or dead), my mother and I would hold hands and say a little prayer. And we would kiss each other and kiss my father. Um, and then we would crawl in a ditch to get to the spring. And my mother had to use her stocking on top of the bottle of water to catch all the algae and all the rocks and the worms and the dirt, and...so we could drink the water. Um, and then we would crawl back to the bomb shelter.

Many nights be unconscious from carbon monoxide poisoning

We lived in the mountains – it was so cold. And in the wintertime my father would crawl out and break twigs from the trees in our garden, and he would create a little fire in the bomb shelter. And he would pour kerosene, or benzene, or mazute on the fire to start it and light it with a match. And we had no ventilation in the room. We had only like a hole where we would crawl into the bomb shelter. And we would huddle around the fire. And we had an agreement, because we would fall asleep around the fire just trying to warm up. And we had an agreement that whoever woke up first, would drag the other two outside and slap them on their face until they wake up because of carbon monoxide poisoning. Many nights we would pass out. Um, and this became our existence.

Dressing for burial

Um, I remember at the age of 13-years-old in 1978...Ah, I remember dressing in my burial clothes. We had gotten a word one night that we were going to fall into the hands of the Palestinians and the Muslims because we couldn’t fight anymore. We had lost so many men. And um, a friend of ours stopped by and he said, “In case we die tonight I just want to wish you a merciful death.” And I remember putting on my Sunday best, my Easter dress that my mother had sewed for me. Because I wanted to look pretty when I’m dead, knowing that there would be no one to bury me.

Threatened with death because was born into “wrong” religion

And you know Pat, there is no child in the world [who] should feel or go through what I went through at age 13-years-old. No matter what their background, no matter what their

religion. There shouldn't exist such hatred in the world today, to the point a child at age 13 has to feel threatened with death because they were born into the "wrong" religion.

Jews protected Lebanese Christians

Um, the only reason we survived that night was because Israel came in physically into Lebanon and established a security zone and protected the Christians, while the Christians of the world (be it in American or Canada or France or Australia or the Vatican) were turning a blind eye to evil, and not caring what's happening to the Christians in the Middle East. It was the Jews who came and shed their blood to protect the Christians of the Middle East. And this is how we survived until 1982, um, when Israel invaded Lebanon.

Pat – Brigitte, why didn't you and your family try to escape quicker?

Unable to get out of Lebanon

Brigitte – We couldn't because that was our home. Where were we going to go? We couldn't get any visas out of Lebanon. We were completely surrounded. We couldn't get out of the security zone. We couldn't go to Israel to go to the embassy to ask for a visa to come to the states for what? You cannot come to the states unless you have half a million dollars deposited in an American bank account, in cash, in order for you to get a visa to come to the United States...if you do not have a relative. So what ended up happening was wealthy Muslims who wished nothing but harm to the western countries, who were [] their money around and depositing it in American and Western bank accounts in order for them to be able to come here, establish presence and get visas...the Christians who were being killed and persecuted were stuck in the Middle East and could not get out.

Even today, there are about 30% of the Christians left in Lebanon. Um, because most of the Christians were driven out or either died during the war. And those Christians left in Lebanon right now are stuck because they cannot get visas to come to America or to any Western country.

How do we deal with Islam?

Tom King – Let me ask you this. You paint Islam as this malevolent blob that ah, is basically trying to destroy Christianity and destroy the West. How do we in the West then deal with Islam? Is it a question of just destroying it...out and out going out and destroying it as a religion? Destroying the people that follow Islam? How do we deal with it?

Christianity and Judaism went through reform

Brigitte – I do not believe we should destroy any religion. There is goodness in every religion. Spirituality is a wonderful gift of humanity. It brings the best out of us. There are certain elements in every religion that are extremists. Even Christianity and Judaism had extreme elements in them. But both Christianity and Judaism went through reform. Even though the Bible says, "An eye for an eye, and a tooth for a tooth" [Exodus 21:24; Matthew 5:38-39], you do not see any Jews walking into mosques and blowing themselves up, killing innocent people. You do not see any Christians walking into mosques and killing innocent people.

Even though the Muslims in Bethlehem, during the siege of Bethlehem, the Church of the Nativity...they turned it into a garbage dump, urinating and defecating, and burning the Bible, and using the Bible as toilet paper...in the Church of the Nativity a few years ago. You didn't hear a blurb out of the Vatican or out of any churches. Not even a complaint, not even a condemnation as to what was happening.

Islam, a 7th century religion, needs to be reformed

But what we are dealing with today, we are dealing with Islam that is still functioning as a

7th century religion. Islam needs to go through reform. The moderate Muslims, we need to challenge them to come forward to challenge the radicalism within their religion to bring about change. Because they cannot deny, and we cannot keep burying our heads in the sand, that Islam (and under the banner of Islam)...Muslims have killed Jews in Israel, massacred Christians in Lebanon, Copts in Egypt, Assyrians in Syria, Hindus in India, Armenians in Turkey, and expelled over 900,000 Jews out of Arab land!

All of that had nothing to do with 9/11, or America, or us being in Iraq, or us being in Afghanistan! Just because Americans and Westerners were not paying attention to murders and massacres that were taking place in the last 100 years throughout the world, does not mean Islam was a wonderful moderate religion that all of the sudden has now been hijacked by a radical Muslim minority!

180 to 300 million Muslim radicals

And speaking of being hijacked by a radical minority -- there are 1.2 billion Muslims in the world today. Not all of them are radicals. There are always wonderful people in every religion. However, we estimate that the radicals are between 15-25%! That translates into 180 million to 300 million radicals who are willing to strap bombs on their bodies and fly airplanes into skyscrapers using them as human bombs! Those radicals, 300 million who want to attack and kill the West, um, are a major problem for the West.

How do we separate Muslim radicals from Muslim moderates?

Tom – How do we, how do we separate the wheat from the chaff as it were? How do we, how do we find the 180 million to 300 million radicals and separate them from the moderate, ah, Muslims so we don't end up killing innocence in the process which is what you've been talking about?

75% of all Muslims hate the West

Brigitte – Well, here is what I also want to add. I want to add that the 15-25% that have been radicalized, but 75% of Muslims all throughout the world hate the West, hate our democracy, think that we are morally corrupt, despise our human rights...despise everything the West stands for! And that has nothing to do with Arab Muslims. That has to do with Muslims in general throughout the world.

80% of Indonesians believe in martyrdom and suicide operations

Look at the poll that came out of Indonesia in the last two weeks! In Indonesia, the largest Muslim country in the world, 80% of people in Indonesia believe in martyrdom and suicide operations, and they support wholeheartedly the Muslim operations in the name of Islam taking place throughout the world.

Moderate Muslims are non-practicing Muslims

Now here is...you're never going to be able to tell the difference between a radical Muslim and a moderate Muslim...until they blow themselves up. Islam is Islam! There [are] no moderate Muslims and radical Muslims. There are practicing Muslims and non-practicing Muslims! Any Muslim who is a moderate who adopts Western values and Western culture is no longer a Muslim. Because it goes against every single commandment in the Koran.

Some have gone undercover in mosques

I think Westerners need to be familiar with the Koran to be able to identify and learn what people are learning in mosques. For example, the best thing we need to do is to start monitoring what they are teaching. Thank God for privately funded groups in the United States who went undercover, for example "The Freedom House" (www.freedomhouse.org; [The Center for Religious Freedom](http://www.cfr.org)) went undercover into some of the most prominent mosques (Islamic institutions in the United States) and for a year they went undercover and collected over 200 books and publications in Arabic, provided

by the government of Saudi Arabia, to teach Muslims living in America and in the West how to deal with non-Muslims living in a non-Muslim land!

Saudi Arabia provides books to teach hatred of infidels and freedom

In their relations with all non-Muslims, these Saudi books and publications repeatedly exhort Muslims to, "Hate them for their religion (meaning us infidels), to hate for Allah's sake, always oppose them in every way, [and] maintain a wall of resentment against them." They say that democracy is responsible for all of the horrible wars of the 20th century, and that attractive names like democracy, justice, freedom, brotherhood, and equality cause all of the world's problems.

3,000 to 6,000 mosques in America

This is what they are teaching in mosques all throughout the United States! We have between 3,00 to 6,000 mosques in America. And it doesn't stop there. They say that it is the religious duty of every Muslim to impose, "functionally Islamic government on every country in the world. This religious duty is binding in principle, in law, in self-defense, in community, and as a sacred obligation of Jihad.

Muslims in America are obligated to overcome America

And in order to fulfill this sacred obligation they must (and here's an important part), "invade its Western heartland, and struggle to overcome it until all the world shouts by the name of the Prophet Mohammed and the teachings of Islam spread throughout the world." (Pat – All right. Hold...) This is unacceptable because we as a democracy cannot allow teaching within our country that incite hatred and war! This is literally a call to war!

Pat – All right. Hold on Brigitte. We'll come right back to ya after a newsbreak.

----- NEWSBREAK-----

What's going on in France?

Pat – "55 Feedback" continues on our Tuesday morning at 9:35a.m., 35 degrees. We're talking with Brigitte Gabriel. She is the founder of American Congress for Truth -- www.americancongressfortruth.com. Her book, Because They Hate. And ah, we've learned in the first half hour...growing up Christian in, ah, Lebanon, and the civil war, and fearing for her life living in a bomb shelter with her elderly parents from the age of 10 to 17, and ah, who has seen the ravages of what's going on with the radical Muslim, and ah, some of the devastation to go with it. And ah, you were kind of talking a little bit about the mosques and some of the things Brigitte they were teaching there. And I think it's evidence...we don't see it in the news enough...but boy, what's going on in France right now?!

Stop allowing Muslims living among us to teach hatred of and war on the West

Brigitte – Ah, exactly! The um, the French people turned a blind eye. They thought ah, that's an element of our society that we really...um, ya know, they're unto themselves...ya know... they're okay, we're okay. Everybody is okay. We're all wonderful.

We in the West cannot continue tolerating such an education. We cannot be continuing with such a mentality because we are realizing that in every country where Muslims are coming in, um, they are rising. Who would have thought that in Paris this stuff is going to be happening? Who would have thought that the bombing in Britain is going to be ah, by four Muslims who were raised and educated in Britain and they are British citizens?! Look at the attack that was planned in Canada. I just returned from Canada last week and we were talking about these things. Ah, in Canada, seventeen Canadians born and

raised, and educated in Canada were plotting to blow up government buildings, the Prime Minister, this - that - and the other. And all of the sudden the Canadian people were stunned as to, how can our own who we thought are Canadians, ah, wanna do something like this?!

We think nice Muslims cannot be radical Muslims – this is not reality

Even in the United States, when Mohammed Atta...I remember the second day I turned on the TV (after September 11th) on September 12, and they were interviewing the landlord of Mohammed Atta from Florida. And if you tuned in half-way through the interview you would think he was talking about two "apple pie, middle class America", some two Mormon guys from Utah! ...they were so wonderful...they were just so nice... they kept to themselves...they never caused any problems...they always looked good... they always paid their rent on time... You would think he was talking about two "apple pie guys from Tulsa, Oklahoma"! (Pat laughs.) Um, but this is not reality.

Being friendly and trusting is more important than being careful?

Look at the student who drove his jeep into the university [students] in North Carolina trying to kill people just standing in the courtyard! That morning, before he did that, if you ask any teacher or anybody who knew him, they will tell you he was the exemplary student...very nice, very warm, um, straight, never caused a problem, never said anything, always kept to himself....

Why do we have to always be shocked and try to play catch up, instead of us monitoring and paying attention to the radical element in our country?!

How do we deal with Saudi Arabia?

Tom – Brigitte, you said before the break that the, ah, the educational materials for these mosques are coming from sects in Saudi Arabia. We...our government anyway...views Saudi Arabia as a major ally in the region. How do we deal with Saudi Arabia in this situation when some of this stuff is being exported from that country?

Saudi Arabia does not want us there

Brigitte – Ah, almost all of that stuff is exported from that country. (Tom – So how do we deal with Saudi Arabia when we view them as a major ally in the region?) The only reason we view Saudi Arabia as a major ally in the region is because we needed to use our bases in Saudi Arabia in order to protect our presence in the Middle East. But after the Father King died last year and the new king came to power, he couldn't wait to get us out of Saudi Arabia, and this is the reason why we built a \$2 billion base in Qatar, and moved everything to Qatar. Ah, now also we know that the radicals in Saudi Arabia are literally waiting to get rid of the kingdom because right now the ruling power in Saudi Arabia is the Royal Family. The Royal Family is hanging on by threads trying to hang on to power. And they are trying to appeal to the base.

We often fund our enemy when we fill our gas tanks. We need our own energy sources

Our biggest problem is our dependence on oil. And one thing I emphasize in my book when I talk about solutions, we have got to create alternative energy sources. We should have started on that yesterday! We must have it done by yesterday! This is why we are becoming slaves. We are becoming puppets in the hands of our enemy, which we are funding every time we fill our gas tanks with gas from the Middle East. Um, and we need to break that dependence. And I believe once we do not need to depend on Saudi Arabia and the Arabic world either for oil...neither for our bases -- we can fight them. Because once we do not supply them with the money when we buy their oil, they're going to drown in their wealth, they're going to drown in their oil – they're not going to have any money! Um, and this is what we need to do. The problem is every time we try to develop alternative energy sources in the United States, you have the environmentalists

screaming, "We cannot dig here...we cannot dig there...we have to protect the environment!"

We put environmentalists ahead of stopping Muslims from obtaining and making WMDs that will destroy our environment and our country

At this point, the environment is going to go up in flames because our enemies are getting their hands on nuclear weapons, biological weapons...threatening to use them in the United States of America! We already know they're playing with that type of material in mosques in the United States! Last year in Washington, D.C., right behind the White House, they were monitoring mosques because they detected radioactive material. Now you tell me – how many churches and temples in this country are handling and playing with radioactive material?! (Pat – Yeah.)

America – we have a problem

We have a problem, and we need to start identifying the problem, identifying the disease that is killing the body, and start treating the disease that is killing the body!

We cannot turn a blind eye to the Muslim community and still survive

At this time, we need to challenge the Muslim community in the United States of America and in every other country in the world, "You cannot have your foot in both places! You are either Americans who immigrated to this country, who love this country, who appreciate our democracy, appreciate our freedoms, and agree to live the way we live in a Western way of life! Or if you do not like it, please don't try to change us. Go back and live under Sharia [Muslim law] in Saudi Arabia where you will be much happier and we will be much happier."

What should our government do about radical mosques?

Tom – What should the United States government do about the radical mosques and the people who frequent them in this country?

"Progressives" in our country created laws that shackle us in monitoring mosques

Brigitte – Well, our government is trying to monitor them. Ah, but we have laws ah, instituted on the books by um, the progressives in the country that's literally acting like shackles around the ankles of our government who, ah,...detering them from carrying on whatever they need to do to protect us! For example, you heard a lot of brouhaha about monitoring phone calls coming from outside of this country into America by Al-Qaida members or terrorist groups outside of America, making phone calls to American citizens.

In U.S. Hamas has cells in over 40 states

Here is why our government wanted to monitor these calls: in the United States for example, we have so many terrorist, ah, operations that have set up shop on American soil. The top three terrorist organizations in America are Al-Qaida, Islamic Jihad, and Hamas. Of all of them, Hamas has the largest infrastructure on American soil! Hamas has cells in over 40 states in the United States! When people hear about Hamas, they think...*Oh, that's an 8,000 miles away problem. That's Israel's problem. It's far away. It doesn't affect us.* Hamas, and I'm going to name you some of the cities they are in (remember, they are in over 40 states)...they have cells in Boston, in New York, in [] Maryland...in Potomac Maryland, in Washington, D.C., in Fort Lauderdale, in Philadelphia, in Boca Raton, in...

Tom – And, and you know this how?! And if the government knows about this -- they are criminals...why can't they be arrested?

America's left places criminals' rights ahead of national protection

Brigitte -- They are not criminals. Our government wants to arrest them, our government wants to

throw them in jail without any [] until we are investigating, and look what the left did in this country? We roughed up some of them and threw them in jail because they are associated with Hamas...the left in this country threw a fit and said, "You cannot treat American citizens this way!"

Rotary Club members are considered enemies in the Hamas Charter

In the Hamas Charter which (I want to continue) was published in 1988 and made public...article 22 of the Hamas Charter...talks about the enemy: "Such organizations are the Free Masons, Rotary Clubs, Lions Clubs, [] and the likes. All of them are disruptive espionage organizations." You tell me how many good hearted Lions Club members, Free Masons, Rotary Club members in this country, who go to their meetings in their localities to raise money to better their community, know that they are mentioned in the Hamas charter?!

Public is not being educated with the truth about Muslims and terrorism because of political correctness

You cannot get on CNN and discuss this stuff because it is politically incorrect. Nobody ...ABC, NBC, CBS, MSNBC...will ever have me on to discuss this stuff because it is politically incorrect. We need to take political correctness and throw it in the garbage where it belongs, and start educating the public about what's happening in our country... (Tom – Throw that in the garbage along with the U.S. Constitution apparently.) No! We have the U.S. Constitution and we're not saying throw the U.S. Constitution.

Our Constitution does not protect those who want to destroy us

The U.S....there is nothing in the U.S. Constitution that gives protection to people handling radioactive material in mosques. There is nothing in the U.S. Constitution that allows people to incite hatred by educating them in Muslim schools in this country: that Christians and Jews are apes and pigs because they are cursed by Allah! There is nothing in the Constitution that gives protection to people who want to destroy America using our American laws against us! That is unacceptable.

Protect America first. Make Muslims leave who want to destroy our country

And we're not saying kill them. We are saying, "If you have anything to do with terrorists who are trying to kill us, at this point you are not welcome in our country. Please get out of our country until we can figure out how we can protect our country from people who want to launch biological warfare in our major cities, [and] who want to launch a nuclear attack in America." We have got to protect America first!

Pat – All right, hold on Brigitte. One more break here. And we will come back with Brigitte Gabriel. The website...americancongressfortruth.com. She has a book, Because They Hate...as she was a refugee from the ah, Christian side of Lebanon, living in a bombed out bomb shelter for seven years before being rescued by Israel.

----- BREAK-----

Pat – Welcome back to "55 Feedback". We're talking with Brigitte Gabriel of the AmercianCongressforTruth.com. Her book, Because They Hate. Look for her this afternoon on Fox News with Neil Cavuto.

What would happen if we were to leave Iraq unfinished?

And ah, let's talk a little bit more about this whole political correctness thing, and...it seems like anything that comes up, ah, that is said against this radical Muslim group...it's shot down. We're worried about hurting feelings, and ah, they're also saying Brigitte that we need to leave Iraq. And if we leave Iraq all the problems there of the blowing up [of]

innocent people...and all the problems will go away. What's your thought of that, being in a situation of an occupied country?

Need a 100-year perspective

Brigitte – Anybody who believes that if we leave Iraq right now we're going to have peace and the Islamists are going to leave us alone...ah, has obviously not paid attention to world events that have been taking place and happening over the last 100 years regarding Islamic extremism and spread throughout the world.

War currently in 44 countries between Muslims and non-Muslims

Um, right now we have Islamic radicals...as you and I are speaking there are wars between Muslims and non-Muslims in 44 countries around the world! 44 countries! Isn't that amazing how we are only focused in America on Iraq and Afghanistan, only because it affects us! And we have no idea about any other country in the world and what's happening there.

If we leave Iraq now, Iran will take it over

The reason why we cannot leave Iraq right now is because if we leave Iraq right now, Iran will come into Iraq like a breath. They'll take it over in a flash. They will work with Muqtada al-Sadr's movement and take it over. Afghanistan will fall like a bird immediately after. They'll be all the way to India. We will have...Iran will have an Islamic Khilafah [state] from India to the Mediterranean. This is a disaster that the West and the rest of the world cannot allow to happen.

Hizballah is agent of Iran

Right now Saudi Arabia, Egypt, and um, and Jordan are shaking in their boots out of fear of Iran! Iran has become the strongest country, Islamic country in the Middle East. And this is why we saw Saudi Arabia, Egypt, and Jordan (after the conflict between Hizballah and Israel two months ago) immediately come out and condemn Hizballah. Not because they do not agree with Hizballah's Islamic ideology. But because they are afraid because they know Iran is using Hizballah as it's proxy. And they know the strength and the power that Iran is developing throughout the Middle East.

We are fighting for our Western civilization in Iraq

If we withdraw out of Iraq, and Iran walks in and takes over Iraq and then Afghanistan... Saudi Arabia, Egypt, and Jordan will be gone because they cannot stand up militarily to Iran, the populations are radicals and they are following the mullahs ideological beliefs of Islamic Khilafah throughout the world, and this is why we are stuck! We are fighting in Iraq literally for our Western civilization right there. We must win the war against Islamic fascism. And Iraq right now is where all the terrorists from all over the world are focusing, are looking, are seeing what's happening.

U.S. in Iraq/Afghanistan is only thing stopping Iran

And the war between us...um, the insurgency in Iraq is completely supported by Iran. This is not the local Iraqis. This is Iran manipulating and playing with, um, the insurgents to get America out of there so Iran can take control. The only thing that's stopping Iran right now from taking complete control of the Middle East is the presence of the United States in Iraq and in Afghanistan!

If we remove our troops, what about Israel?

Pat – If they take control, let's say with these elections coming up, and pressure then is put on to remove the troops...Democratic control of ah, Congress and Senate...ah, and they do remove the troops (we pull out of there) and they do the scenario you just said -- how long before Israel's a target?

Israel is being targeted, but is ready to attack Iran, and is waiting on U.S.

Brigitte – Ah, Israel is already being targeted. Ariel Sharon gave commands for all of the Israeli IDF (Israeli Defense Force) to be ready to launch a preemptive attack if needed against Iran by March of 2006...ah, this past March. Israel is ready to ah, attack along with America. Israel cannot do it alone. We are waiting to work with the United States and we are literally right now wasting time, allowing Iran to develop...to get to the point, ah, where we cannot attack them anymore because of the damage we will inflict on the... not only the civilians, but also on the oil fields and the geography of the area. And the Mullahs know that and it's a race between us and them.

Iran, radical Muslims want to annihilate U.S.

They already stated repeatedly that they want to annihilate Israel and wipe Israel off the map. But what Americans need to keep in mind is that according to the Islamists and as far as they're concerned, Israel is merely "The Little Satan". America is "The Great Satan". Their goal is America. The bulls-eye is America. And they will take care of Israel as soon as they get their hands on the bombs.

Hizballah is most lethal terrorist organization in world

I pray and hope that Israeli Intelligence has learned a great lesson after their war with Hezbollah in Lebanon because they realized that they underestimated Hizballah's capability in Lebanon and Iran's involvement and support of Hizballah. And we also have seen how North Korea has supplied Iran with missile technology that has been used in the war in Lebanon. The Zalzal missile that Israel bombed in Lebanon was of North Korea technology that was sold to Iran and then supplied directly [into] the hands of the most lethal terrorist organizations in the world...Hezbollah. Also we need to note that it is Hezbollah in Lebanon who is developing an [] refugee camp in South Lebanon which Israel was bombarding this summer. The IED technology which they are exporting to Iraq and Afghanistan to be used against our troops...this is strictly Hezbollah technology developed in Lebanon and sent to Iraq and Afghanistan.

We have to kill all of them before they kill us? (It's amazing how Democrats think only in killing!)

Tom – It seems like we're going in circles here, but let me see if I understand your point correctly here. We have to kill all of them before they kill us...because we can't tell who's radical and who's not! Is that what you're saying?! That we, we have to go and, and invade and kill all of these people before they kill us?! (Pat – Or let's...let's...) (Brigitte – No, no...) (Pat – put it...) (Brigitte – no, no...) Or am I missing the point? (Pat – a different way.) (Brigitte – no, no...let me answer him...) (Pat – Oh, okay.) (Brigitte – because it's amazing how Democrats think only in killing!)

Brigitte – I did not say those words! It's amazing how whenever I give an interview only a Democratic liberal can immediately... (Tom – So, all right, well how do we stop them?!) No, you're going to have to listen to me! It's amazing how you think about killing...we either kill...it's either black or white! We either kill 'em all, or they kill us!

Liberals need to reason together to work toward getting radicals out of our country

Whatever happened to you progressive liberals to reason and come together and say, "We need to challenge the [Muslim] moderates, to work with the moderates and challenge the radicals to either get out of our land so we can protect our land...!! (Tom – Those aren't the points you've been making for the last hour though!) These are exactly the points (Tom laughs.) I've been making about challenging the moderates in our country to stand up and taking care of the radicals, and getting them out of our soil!! (Tom – And you've already said...) We... (you can't tell the radicals from the moderates!) No, not kill the radicals! We need to get the radicals out, we already know who the cells are here! We need to support our Administration in monitoring them, finding out who they

are involved with, and getting them out of our country without any American lawyers defending their civil liberties!

Our laws are working against our efforts to effectively fight the war on terrorism
We are at war!! This does not mean killing them! This means sending them over there and getting them out of our country where they are using our laws against us!

[...Remove radical [practicing] Muslims from our country. Do not kill them here, but if they attack or are going to attack us overseas, kill them if necessary], and in Iran kill them preemptively

Now... (Tom – So we can kill them over there! We'll get them out of America so we can kill them over there because you're already talking about preemptive strikes in Iran...)
Wait! (Tom – preemptive... (Pat – What?!) strikes in Saudi Arabia.) (Pat – She didn't...)
(Tom – She, she absolutely mentioned that!) (Pat – The Israelis [] ...) I didn't say anything about... (Pat – Come on, Tom!) preemptive strikes on Saudi Arabia! I did say about preemptive strikes on Iran. Absolutely we should do that! And we should do that immediately!

If we had attacked Hitler [Germany] early on [preemptively], 14 million people might have been saved. Iran is our Germany today. We must act sooner than later
If we would have dealt with Hitler before he killed 14 million people, we would not be here today. In 1939...front cover of "Newsweek" magazine was 50% of the Democrats did not want to go to war with Hitler, and 50% of the Republicans are saying, "Let's take care of Hitler." Hitler ended up dragging the whole world into war! We had to use two atomic bombs in Japan...killed thousands of people, not to mention the 14 million that Hitler killed! If we would have gone to war with Hitler, maybe 100,000 people would have died, [but] 14 million would have been saved! (Pat – Let...) We are facing the same disaster with Iran!

Kill 'em all and let God sort it out!?

Pat – Let me... (Tom – So once again...) No... (Tom -- we're right back!) No... (Tom -- Kill 'em all, and let God sort it out!) No, no. Tom...

No – kill the radicals [overseas]. Perfect example was need to kill Taliban radicals, though our laws precluded it. In war we have to be able to attack/kill our enemy. It is suicide to have laws that will not allow us to win the war on terrorism

Brigitte – No, I said kill the radicals! We've got to attack (Pat – Right.) and kill the radicals! This does not mean kill the moderates! This does not mean kill all of them! There are areas where you can attack and you can kill. How come we had a funeral for the Taliban in Afghanistan? About 90 of them were standing in a circle...we knew about it, we watched it via satellite, but we refused to drop the bomb because we couldn't do it because of the laws we have on the books! That is suicidal! In the time of war you have got to be able to attack your enemy and kill your enemy. That's the only way you are going to survive!

Pat – Right. But let me...

If Muslims ever take over U.S. we will lose our rights and freedoms

Brigitte – But let me assure you of one thing. If they get over here and have their way, you will lose your rights, you will lose your freedom!

Can we negotiate with radical Muslims?

Pat – Right. Let me...as we're getting toward the end here Brigitte, ah, Tom, and the people he thinks a lot alike, want to be able to talk with these people. Somehow talk with them. You've lived there in terror. Can you talk with these people?

“Progressive” liberals do not know what they are talking about! You can not negotiate with evil! We need to learn and understand what and who we are fighting

Brigitte – Ya know? I would love to send all of them right now to Osama bin Laden so they can talk. I will personally pay for their tickets to sit in the company of Osama bin Laden, and talk with him. And then hopefully Saudi Arabia would sadly cover the funeral. These people do not know what they are talking about!

You can not negotiate with evil! There are evil people in this world that you cannot negotiate with. This is something people in the West need to understand and learn. They need to understand what [and who] we are fighting!

Look at www.prophetofdoom.net. Learn and understand what the Qur’an says about Christians, tolerance, women, and children. Get educated

Most people have never read the Qur’an, do not know what the Qur’an says. We have a watered down version of the Qur’an supplied by CARE. But most people in this country never read the Bible, let alone the Qur’an. And I recommend everyone listening to [or reading] this interview to please go to www.prophetofdoom.net website where the Qur’an is translated in English, [and] chronicled by subject. If you want to know what the Qur’an says about Christians, you just click on Christians. It gives you every verse in the Qur’an and accompanying books. If you want to hear what the Qur’an teaches about tolerance, click on tolerance...on Jihad...on women...on children – and get educated.

Keep yelling out the truth Brigitte!

Pat – All right. Brigitte – Excellent man!! American Congress for Truth!. Because They Hate is the book! Neil Cavuto this afternoon on Fox! Brigitte, keep ah, keep yelling out there in the woods! (Brigitte laughs.) We’re going to hear ya!

Brigitte – Thank you.

Pat – Thank you. Bye, bye.
